

Online Courses You Can Study From Home

Make Change Associates offer online distance learning courses to students in UK and throughout the world. We are based in the UK and have helped students to achieve internationally recognised qualifications in various sectors.

Our online distant learning courses allow you to study and complete UK accredited programs at your own time, wherever you are in the world. With the online courses available from Make Change Associates you can improve your professional skills in a location and at a time that is suitable for your lifestyle and work commitments.

The courses we offer are in line with the **Qualifications and Credit Framework (QCF)**. This is a system of recognising and comparing skills and qualifications. It awards credit for qualifications and units (small steps of learning). The three types of qualifications are:

- award (1 to 12 credits)
- certificate (13 to 36 credits)
- diploma (37 credits or more)
- Levels start at 1 - 8 within the framework.

To find out more about the courses you are interested in, take a look around this website, or fill in our online enquiry form to request further information.

Who Studies by Distance Learning?

The opportunity to study in your own country, or current location, appeals to many types of people:

- High school leavers who are looking to build work related skills
- Mature people who have delayed entry into further education
- Older people who have work or family commitments which prevent studying full time
- Expatriates who are working away from their home countries
- Employee's looking to develop in their career and gain a recognised qualification

We Help You to Build a Successful Future

- By gaining a qualification
- By enhancing and improving your workplace skills
- By improving your understanding and knowledge in your chosen sector
